RECOMMENDED CASH ACQUISITION

of

KAZ MINERALS PLC

by

NOVA RESOURCES B.V.

(a company indirectly owned by joint offerors (i) Oleg Novachuk and (ii) Vladimir Kim)

**to be effected by means of a Scheme of Arrangement
under Part 26 of the Companies Act 2006**

Summary

- ℞• The board of Nova Resources B.V. ("**Bidco**") and the Independent Committee of KAZ Minerals PLC ("**KAZ Minerals**") are pleased to announce that they have reached agreement on the terms of a recommended cash offer to be made by Bidco for the entire issued and to be issued share capital of KAZ Minerals (other than the KAZ Minerals Shares already owned or controlled by the Consortium) (the "**Acquisition**"). As at 27 October 2020 (being the last Business Day prior to the date of this announcement), the Consortium owned or controlled 186,079,209 KAZ Minerals Shares, representing approximately 39.39 per cent. of KAZ Minerals' issued share capital (excluding shares held in treasury) as at that date. It is intended that the Acquisition will be implemented by way of a scheme of arrangement.
- ℞• Under the terms of the Acquisition, KAZ Minerals Shareholders will be entitled to receive:

For each KAZ Minerals Share: 640 pence in cash

- ℞• The Acquisition values the entire issued and to be issued share capital of KAZ Minerals at approximately Â£3.0 billion, and represents a premium of approximately:
 - ℞• 24.9 per cent. to the Closing Price of 512.4 pence per KAZ Minerals Share on 2 October 2020 (being the last Business Day prior to agreement having been reached with the Independent Committee);

existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement).

- In total, therefore, Bidco has received irrevocable undertakings to vote, or procure votes, in favour of the Scheme at the Court Meeting and the resolutions relating to the Acquisition at the KAZ Minerals General Meeting in respect of 28,964,475 KAZ Minerals Shares in aggregate, representing approximately 6.13% per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement).

Background to and reasons for the Acquisition and recommendation

- The Consortium believes that there is a strong strategic rationale for the Acquisition, recognising that KAZ Minerals' focus on developing and operating large scale, low cost copper mines in Kazakhstan and the CIS region has enabled it to successfully progress a pipeline of growth projects, including its largest assets in Kazakhstan, Aktogay and Bozshakol. The Consortium also believes that KAZ Minerals' decision to dedicate efforts to a capital intensive strategy focused on long term growth remains the optimal long term strategic path for KAZ Minerals. The Consortium recognises this may be misaligned with the preference of many investors in the mining sector.
- Consequently, the members of the Consortium have concluded that KAZ Minerals' long term development of Baimskaya would be best undertaken away from public markets as a private company. Accordingly, the Consortium is offering KAZ Minerals Shareholders an opportunity to crystallise the value of their investment in KAZ Minerals Shares in cash at a premium to recent trading levels.
- In reaching its decision to recommend the terms of the Acquisition, the Independent Committee of KAZ Minerals has taken account of both the long term potential value of KAZ Minerals and the risks inherent in achieving this value. The Independent Committee believes that the Acquisition provides KAZ Minerals Shareholders with a fair value for KAZ Minerals' operating assets and development portfolio in Kazakhstan and Kyrgyzstan, and crystallises a value for Baimskaya that reflects the Independent Committee's view of the increasing risks in this project.

Information on Bidco and the Consortium

- Bidco is a Dutch private limited liability company indirectly owned by a consortium comprising of Oleg Novachuk (the current chairman of KAZ Minerals) and Vladimir Kim (a non-executive director of KAZ Minerals) (together, the "**Consortium**"). Bidco is a wholly-owned subsidiary of Vostok Cooper B.V. ("**Holdco**"), itself a Dutch private limited liability company indirectly owned by the Consortium. As at the Effective Date, Oleg Novachuk will indirectly own 36.5 per cent. of Holdco and Vladimir Kim will indirectly own 63.5 per cent. of Holdco.
- Oleg Novachuk and Vladimir Kim are joint offerors with respect to the Acquisition.

Timetable and Conditions

- It is intended that the Acquisition will be implemented by way of a Court-sanctioned scheme of arrangement under Part 26 of the Companies Act (although Bidco reserves the right to effect the Acquisition by way of a Takeover Offer, subject to the consent of the Panel).
- The Acquisition will be on the terms and subject to the Conditions and further terms set out in Appendix 1 to this announcement, and to be set out in full in the Scheme Document. The Conditions include (among others):

- approval of KAZ Minerals Shareholders at the KAZ Minerals Meetings;

- ℞• satisfaction of certain Regulatory Conditions; and
- ℞• the sanction of the Scheme by the Court.
- ℞• It is expected that the Scheme Document, containing further information about the Acquisition and notices of the Court Meeting and KAZ Minerals General Meeting, together with the associated forms of proxy, will be posted to KAZ Minerals Shareholders in due course and that the Court Meeting and the KAZ Minerals General Meeting will be held in December 2020 or early January 2021. The Acquisition is currently expected to become Effective in the first half of 2021, subject to the approval of the KAZ Minerals Shareholders, receipt of the relevant antitrust clearances and regulatory approvals and the sanction of the Scheme by the Court. An expected timetable of key events relating to the Acquisition will be provided in the Scheme Document.

Commenting on the Acquisition, Oleg Novachuk, Chairman of Bidco, said:

"We are pleased to announce this recommended cash offer for KAZ Minerals. Mr. Kim and I believe that KAZ Minerals has made notable progress as a public company since listing on the London Stock Exchange in 2005. However, driven by the current market uncertainty and the corporate circumstances of sequential development projects, we believe that KAZ Minerals' long term interests would be best served as a private company. We remain confident that the execution of a higher risk, capital intensive strategy remains the optimal long term path for KAZ Minerals, but we recognise that our risk appetite may be misaligned with the preference of many investors in the mining sector. In taking this important step, we wanted to ensure that KAZ Minerals Shareholders were provided with the opportunity to crystallise the value of their investment at a premium valuation. We are confident that this recommended Acquisition delivers an attractive return to KAZ Minerals Shareholders."

Commenting on the Acquisition, Michael Lynch-Bell, KAZ Minerals Senior Independent Director and Chair of the Independent Committee, said:

"Following extensive negotiations, the Independent Committee of KAZ Minerals intends to unanimously recommend the Acquisition to KAZ Minerals Shareholders as it represents an opportunity for KAZ Minerals Shareholders to realise their investment in KAZ Minerals at a premium in cash in the near term. We believe the offer provides a fair value for KAZ Minerals' operating assets and development portfolio, and crystallises a value for Baimskaya that reflects the Independent Committee's view of the increasing risks in this project."

This summary should be read in conjunction with the following announcement and the Appendices. The Conditions to, and certain further terms of, the Acquisition are set out in Appendix 1. The bases and sources for certain financial information contained in this announcement are set out in Appendix 2. Details of irrevocable undertakings are set out in Appendix 3 to this announcement. Certain definitions and terms used in this announcement are set out in Appendix 4.

Notice to US investors in KAZ Minerals

*The Acquisition relates to the shares of an English company and is being made by means of a scheme of arrangement provided for under English company law. A transaction effected by means of a scheme of arrangement is not subject to the tender offer or proxy solicitation rules under the US Securities Exchange Act of 1934 (the "**US Exchange Act**"). Accordingly, the Acquisition is subject to the disclosure requirements and practices applicable in the United Kingdom to schemes of arrangement which differ from the disclosure requirements of the US tender offer and proxy solicitation rules. The financial information relating to KAZ Minerals included in this announcement and the Scheme Document has been prepared in accordance with accounting standards applicable in the United Kingdom and thus may not be comparable to financial information of US companies or companies whose financial statements are prepared in accordance with generally accepted accounting principles in the US.*

If, in the future, Bidco exercises its right to implement the Acquisition by way of a Takeover Offer, which is to be made into the US, such Takeover Offer will be made in compliance with

the applicable US laws and regulations, including Section 14(e) and Regulation 14E under the US Exchange Act. Such a takeover would be made in the United States by Bidco and no one else.

In the event that the Acquisition is implemented by way of Takeover Offer, Bidco, its affiliates, and the nominees or brokers (acting as agents) may make certain purchases of, or arrangements to purchase, shares in Kent outside the Acquisition, such as in open market purchases or privately negotiated purchases, during the period in which the Acquisition remains open for acceptance. If such purchases or arrangements to purchase were to be made, they would be made outside the US and would comply with applicable law, including United Kingdom laws and the US Exchange Act. Any such purchases by Bidco or its affiliates will not be made at prices higher than the price of the Acquisition provided in this announcement unless the price of the Acquisition is increased accordingly. Any information about such purchases or arrangements to purchase shall be disclosed as required under United Kingdom laws and will be available to all investors (including US investors) via the Regulatory Information Service and shall be available on the London Stock Exchange website at www.londonstockexchange.com. To the extent that such information is required to be publicly disclosed in the United Kingdom in accordance with applicable regulatory requirements, this information will, as applicable, also be publicly disclosed in the United States.

It may be difficult for US holders of KAZ Minerals Shares to enforce their rights and any claim arising out of the US federal laws, since Bidco and KAZ Minerals are located in a non-US jurisdiction, and some or all of their officers and directors may be residents of a non-US jurisdiction. US holders of KAZ Minerals Shares may not be able to sue a non-US company or its officers or directors in a non-US court for violations of the US securities laws. Further, it may be difficult to compel a non-US company and its affiliates to subject themselves to a US court's judgement.

Neither the US Securities and Exchange Commission nor any US state securities commission has approved or disapproved or passed judgement upon the fairness or the merits of the Acquisition, or determined if the information contained in this announcement is adequate, accurate or complete. Any representation to the contrary is a criminal offence in the US.

The receipt of consideration by a US KAZ Minerals Shareholder for the transfer of its KAZ Minerals Shares pursuant to the Acquisition will likely be a taxable transaction for US federal income tax purposes and under applicable US state and local, as well as foreign and other, tax laws. RECOMMENDED CASH ACQUISITION

of

KAZ MINERALS PLC

by

NOVA RESOURCES B.V.

(a company indirectly owned by joint offerors (i) Oleg Novachuk and (ii) Vladimir Kim)

**to be effected by means of a Scheme of Arrangement
under Part 26 of the Companies Act 2006**

1. Introduction

The board of Nova Resources B.V. ("**Bidco**") and the Independent Committee of KAZ Minerals PLC ("**KAZ Minerals**") are pleased to announce that they have agreed the terms of a recommended cash offer to be made by Bidco for the entire issued and to be issued share capital of KAZ Minerals (other than the KAZ Minerals Shares already owned or controlled by the Consortium) (the "**Acquisition**").

As at 27 October 2020 (being the last Business Day prior to the date of this announcement), the Consortium owned or controlled 186,079,209 KAZ Minerals Shares, representing approximately 39.39 per cent. of KAZ Minerals' issued share capital (excluding shares held in treasury) as at that date.

It is intended that the Acquisition will be implemented by way of a Court¹ sanctioned scheme of arrangement under Part 26 of the Companies Act (although Bidco reserves the right to effect the Acquisition by way of a Takeover Offer, subject to the consent of the Panel).

2. The Acquisition

Under the Acquisition, which will be made on the terms and subject to the Conditions and further terms set out in Appendix 1 to this announcement, and to be set out in full

in the Scheme Document, KAZ Minerals Shareholders will be entitled to receive:

For each KAZ Minerals Share: 640 pence in cash

The Acquisition values the entire issued and to be issued share capital of KAZ Minerals at approximately Â£3.0 billion, and represents a premium of approximately:

- 24.9 per cent. to the Closing Price of 512.4 pence per KAZ Minerals Share on 2 October 2020 (being the last Business Day prior to agreement having been reached with the Independent Committee);
- 12.1 per cent. to the Closing Price of 570.8 pence per KAZ Minerals Share on 27 October 2020 (being the last Business Day prior to the date of this announcement);
- 16.5 per cent. to the volume-weighted average price of 549.2 pence per KAZ Minerals Share for the one-month period ended 27 October 2020 (being the last Business Day prior to the date of this announcement); and
- 26.5 per cent. to the volume-weighted average price of 505.8 pence per KAZ Minerals Share for the six-month period ended 27 October 2020 (being the last Business Day prior to the date of this announcement).

If, on or after the date of this announcement, any dividend and/or other distribution and/or return of capital is declared, made or paid or becomes payable in respect of the KAZ Minerals Shares, Bidco reserves the right to reduce the consideration payable under the terms of the Acquisition for the KAZ Minerals Shares by an amount up to the amount of such dividend and/or other distribution and/or return of capital, in which case any reference in this announcement to the consideration payable under the terms of the Acquisition will be deemed to be a reference to the consideration as so reduced. In such circumstances, KAZ Minerals Shareholders would be entitled to retain any such dividend and/or other distribution and/or return of capital.

The Acquisition is subject to antitrust and regulatory approvals and is currently expected to become Effective in the first half of 2021.

3. Background to and reasons for the Acquisition

The Consortium believes that there is a strong strategic rationale for the Acquisition. KAZ Minerals is a well-established and efficient copper company focused on large scale, low cost open pit mining in the CIS region.

The Consortium recognises that KAZ Minerals' focus on developing and operating large scale, low cost copper mines in Kazakhstan and the CIS region has enabled it to successfully progress a pipeline of growth projects, including its largest assets in Kazakhstan, Aktogay and Bozshakol.

The Consortium also believes that KAZ Minerals' decision to dedicate efforts to a capital intensive strategy focused on long term growth remains the optimal long term strategic path for KAZ Minerals. The Consortium has the appetite for the risk involved in this strategy, which necessarily entails a number of years of heavy capital investment with diminished prospects for a reliable dividend stream. The members of the Consortium accept those diminished prospects, but recognise this may be misaligned with the preference of many investors in the mining sector for a greater proportion of capital to be allocated to dividends rather than re-investment into long term growth projects.

The Baimskaya project is one of the world's most significant undeveloped copper assets with the potential to deliver a strong return on investment, but is subject to a

number of risks including project delivery risks, demand and supply dynamics for copper, future prevailing prices for copper and gold, and a reliance on the Russian government to make the necessary investments in new infrastructure for the project. The members of the Consortium accept those uncertainties.

Consequently, whilst the Consortium firmly believes that Baimskaya marks the next stage of the transformation of KAZ Minerals and represents an attractive opportunity to deliver value accretive growth, the members of the Consortium have concluded that KAZ Minerals' long term development of Baimskaya would be best undertaken away from public markets as a private company.

The Consortium also recognises that KAZ Minerals, along with other CIS and international businesses, is currently subject to unprecedented market uncertainty caused by the outbreak of COVID-19 and its potential long term impact on the global economy.

Accordingly, the Consortium is offering KAZ Minerals Shareholders an opportunity to crystallise the value of their investment in KAZ Minerals Shares in cash at a premium to recent trading levels.

The Consortium considers the terms of the Acquisition to be highly attractive for KAZ Minerals Shareholders. The Offer Price represents a premium of approximately:

- 24.9 per cent. to the Closing Price of 512.4 pence per KAZ Minerals Share on 2 October 2020 (being the last Business Day prior to agreement having been reached with the Independent Committee); and
- 26.5% per cent. to the volume-weighted average Closing Price of 505.8 pence per KAZ Minerals Share for the six-month period ended on 27 October 2020 (being the last Business Day prior to the date of this announcement).

The terms of the Acquisition represent a premium to the average of research analysts' target prices published as at 27 October 2020.

4. Recommendation

The Independent Committee, which has been so advised by Citigroup and UBS as to the financial terms of the Acquisition, considers the terms of the Acquisition to be fair and reasonable. In providing their advice to the Independent Committee, Citigroup and UBS have taken into account the commercial assessments of the Independent Committee.

Accordingly, the members of the Independent Committee intend unanimously to recommend that KAZ Minerals Shareholders vote in favour of the Scheme at the Court Meeting and the resolutions relating to the Acquisition at the KAZ Minerals General Meeting, as the members of the Independent Committee who hold KAZ Minerals Shares have irrevocably undertaken to do in respect of their own beneficial holdings totalling 719,026 KAZ Minerals Shares (representing approximately 0.15 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement)).

Further details of these irrevocable undertakings are set out in Appendix 3 to this announcement.

5. Background to and reasons for the recommendation

The Independent Committee recognises that KAZ Minerals' proven ability to develop a portfolio of world-class assets has created significant value, with its operations at

Aktogay and Bozshakol delivering low cost, industry leading production growth. Over the past 5 years, KAZ Minerals' production has risen from 85 kt of copper in 2015 to 311 kt in 2019 and it has consistently been amongst the lowest cost copper miners globally with a 2019 net cash cost of just 77 cents per pound. KAZ Minerals' five year total shareholder return measured to the Offer Price is 484 per cent., compared to a return over the same period of 11 per cent. for the FTSE 350 and 119 per cent. for FTSE 350 Mining. The Independent Committee also recognises that KAZ Minerals delivered a strong performance in the first half of the current financial year despite challenging conditions across the sector since the emergence of COVID-19 and continues to have confidence in the long term prospects of the company.

In reaching its decision to recommend the terms of the Acquisition, the Independent Committee has taken account of both the long term potential value of KAZ Minerals and the risks inherent in achieving this value. In particular, the Independent Committee believes that the Acquisition:

- ℞• provides KAZ Minerals Shareholders with a fair value for KAZ Minerals' operating assets and development portfolio in Kazakhstan and Kyrgyzstan, particularly in the context of the trading multiples and precedent transaction multiples of other producing copper assets in similar regions; and
- ℞• crystallises a value for the Baimskaya project that reflects the Independent Committee's view of the increasing risks in this project, as outlined below.

The Baimskaya project is currently in its early stages and is not expected to commence production until 2026 at the earliest. Whilst the Independent Committee believes that the Baimskaya project has the potential to generate value over the long term, the risks surrounding the successful development of the project are significant and have recently increased, which may impact the potential value that KAZ Minerals Shareholders could realise from this project. In particular:

- ℞• in a project update announcement on 5 June 2020, the capital budget for the Baimskaya project was increased from the initial estimate of \$5.5 billion on acquisition to around \$7 billion. Although KAZ Minerals' estimated base case capital budget for the project is unchanged at approximately \$7 billion, KAZ Minerals is in ongoing discussions with the Russian government regarding the provision of transport and power infrastructure for the operational phase of the Baimskaya project. The outcome of these discussions remains uncertain and has the potential to further increase the capital and operating costs of the project;
- ℞• in order to deliver the project on schedule, which would maximise its value, the Independent Committee believes that there is increasing risk that the KAZ Minerals Group may need to make material capital investments ahead of definitive commitments from the Russian government in respect of all aspects of infrastructure;
- ℞• the Russian government has recently confirmed an increase in mineral extraction tax ("MET") rates for mining companies in Russia. Whilst there may be limited protections against this increase for new mining projects for a period of time, the Independent Committee considers that the revised MET regime has a negative impact on the overall economics of the Baimskaya project; and
- ℞• the Independent Committee believes that the impact of prolonged economic uncertainty could reduce the ability of the KAZ Minerals Group to finance the construction of the Baimskaya project from its own cash resources, increasing pressure on gearing levels during the development of the project.

In addition, the Independent Committee notes that:

- ℞• current conditions in the markets for copper and gold, the KAZ Minerals Group's primary products, are favourable, with LME copper prices on 26 October 2020 trading within 6 per cent. of the five-year high of \$7,263 /t on 8 June 2018 (based on the ask price) and LBMA gold prices within 8 per cent. of the recent record high of \$2,067 /oz on 6 August 2020 (based on the close price);
- ℞• the Offer Price represents a premium of:
 - ℞• 24.9 per cent. to the Closing Price of 512.4 pence per KAZ Minerals Share on 2 October 2020 (being the last Business Day prior to agreement having been reached with the Independent Committee); and
 - ℞• 26.5 per cent. to the volume-weighted average Closing Price of 505.8 pence per KAZ Minerals Share for the six-month period ended on 27 October 2020 (being the last Business Day prior to the date of this announcement); and
- ℞• the Acquisition provides an opportunity for all KAZ Minerals Shareholders to realise their investments in KAZ Minerals at a premium and in cash.

Accordingly, following careful consideration of the above factors, the Independent Committee intends unanimously to recommend the Acquisition to KAZ Minerals Shareholders.

6. **Strategic plans, management, employees, pensions, research and development and locations**

Consortium's strategic plans for KAZ Minerals

The Consortium believes that KAZ Minerals' long term interests are best served as a private company.

Since KAZ Minerals' listing on the London Stock Exchange in 2005, it has focused on developing and operating large scale, low cost copper mines in Kazakhstan and the CIS region. As set out in paragraph 3, the Consortium believes that the long term growth of KAZ Minerals is best served by embarking on the execution of its capital intensive strategy, a strategy which necessarily entails the prospect of a number of years of heavy capital investments.

Despite the prevailing market uncertainty and significant long term capital expenditure commitments, the Consortium is confident in the underlying quality and potential of KAZ Minerals' assets and accordingly believes that KAZ Minerals represents an attractive long term investment opportunity.

The Consortium intends that KAZ Minerals will continue to operate as a standalone business that will continue to pursue robust standards of business practice.

Employees, management, existing rights and pensions

The Consortium attaches significant importance to the skills and experience of the existing management and employees of the KAZ Minerals Group. The Consortium has communicated to the Independent Committee that, following the Effective Date, the existing employment rights, including pension rights, of all KAZ Minerals employees, will be safeguarded in accordance with applicable law.

The Consortium does not expect any reduction in headcount that would be material in the context of KAZ Minerals' 15,755 employees. KAZ Minerals has 27 employees in its London head office. Following the Effective Date, the Consortium intends to conduct a review of certain corporate and support functions in KAZ Minerals' London head office, including those related to KAZ Minerals' status as a listed company. Further to that review and subject to any necessary consultation, it is likely that there will be a reduction in the London head office headcount. The Consortium has not yet developed specific proposals as to how potential reductions will be implemented, but will draw up detailed plans within three months of the Effective Date. Any individual potentially impacted will be treated in accordance with applicable law. With the exception of the review of the corporate and support functions in KAZ Minerals' London head office and its likely output, the Consortium does not expect any restructuring being undertaken that would result in any significant job losses in the operating business of KAZ Minerals.

The Consortium expects that the independent non-executive directors of KAZ Minerals' board will resign as directors of KAZ Minerals effective as at the date of KAZ Minerals delisting from the London Stock Exchange and the Kazakhstan Stock Exchange.

With the exception of those referenced above, the Consortium's plans do not involve any material change in the terms and conditions of employment, or in the balance of the skills and functions, of KAZ Minerals employees and management.

KAZ Minerals does not operate or sponsor a defined benefit pension scheme.

Management incentivisation arrangements

Except as described below, Bidco has not entered into and has not had discussions on proposals to enter into, any new incentivisation arrangements with members of KAZ Minerals' management.

In order to promote the retention of Andrew Southam and John Hadfield following the Effective Date and subject to the cancellation of the listing of KAZ Minerals Shares on the Official List, Bidco has agreed that it will, following the Effective Date, grant to these two individuals (subject to their still being employed by the KAZ Minerals Group at the Effective Date) cash bonuses payable subject to continued employment (the "**Transition Awards**"). The aggregate value of the Transition Awards is not expected to exceed £815,000.

The value of each individual's Transition Award will be calculated by reference to an agreed formula based on the value of the KAZ Minerals Shares subject to the individual's unvested awards under the 2017 Long Term Incentive Plan that is expected to lapse upon the Scheme becoming Effective due to the application of time pro-rating (before the application of reduction for performance assessment) reduced by 50 per cent., multiplied by the Offer Price. The Transition Awards will become payable at the same time as the awards they replace would have vested, had the Acquisition not occurred. The terms of the Transition Awards will broadly replicate the terms of awards under the 2017 Long Term Incentive Plan, save that no further performance conditions will apply, no post-vesting holding period or malus/clawback provisions will apply, and awards will become payable in full immediately if the individual ceases employment with the KAZ Minerals Group other than due to resignation or dismissal for gross misconduct.

As required by, and solely for the purposes of Rule 16.2 of the Takeover Code, Citigroup and UBS have reviewed the terms of the Transition Awards and advised the Independent Committee that the Transition Awards are fair and reasonable so far as Kent Shareholders are concerned. In providing their advice, Citigroup and UBS have taken into account the commercial assessments of the Independent Committee.

Trading facilities

As set out in paragraph 17, it is intended that the London Stock Exchange and the FCA will be requested respectively to cancel trading in KAZ Minerals Shares on the London Stock Exchange's market for listed securities and the listing of the KAZ Minerals Shares on the Official List on or shortly after the Effective Date.

It is also intended that the Kazakhstan Stock Exchange will be requested to cancel trading in KAZ Minerals Shares for listed securities and the listing of the KAZ Minerals Shares on the official list on the Kazakhstan Stock Exchange on or shortly after the Effective Date.

Headquarters, fixed assets and research and development

The Consortium does not have any intentions to change the places of KAZ Minerals' business, including the location of its headquarters and the headquarters' functions. The Consortium does not intend to redevelop any of KAZ Minerals' fixed assets.

KAZ Minerals does not have any material research and development operations or functions and the Consortium does not intend to change this position.

9. **Information relating to KAZ Minerals**

KAZ Minerals is a well-established and efficient copper company focused on large scale, low cost, open pit mining in Kazakhstan, Russia and Kyrgyzstan. It operates the Aktogay and Bozshakol open pit copper mines in the East Region and Pavlodar region of Kazakhstan, three underground mines and associated concentrators in the East Region of Kazakhstan and the Bozymchak copper-gold mine in Kyrgyzstan. In 2019, total copper production was 311 kt with by-products of 201 koz of gold, 3,382 koz of silver and 38 kt of zinc in concentrate. The KAZ Minerals Group acquired the Baimskaya project in the Chukotka region of Russia in January 2019, one of the world's most significant undeveloped copper assets, with the potential to become a large scale, low cost, open pit copper mine.

The KAZ Minerals Group's major operations at Aktogay and Bozshakol have delivered industry leading production growth and transformed KAZ Minerals into a company with a strong portfolio of world class, open pit copper mines.

Aktogay is a large scale, open pit mine with a remaining mine life of around 25 years (including the expansion project) at an average copper grade of 0.35 per cent. (oxide) and 0.33 per cent. (sulphide). Aktogay commenced production of copper cathode from

oxide ore in December 2015 and copper in concentrate from sulphide ore in February 2017. The operating sulphide concentrator has an annual ore processing capacity of 25 million tonnes and the sulphide processing capacity is expected to be doubled to 50 million tonnes with the addition of a second concentrator by the end of 2021. Aktogay is competitively positioned on the global cost curve and is expected to produce an average of 100 kt of copper per year from sulphide ore until 2021, increasing to 170 kt per year from 2022 to 2027, after the second concentrator commences operations. Copper production from oxide ore is expected to be in the region of 20 kt per annum until 2024.

Bozshakol is a first quartile asset on the global cost curve with an annual ore processing capacity of 30 million tonnes and a remaining mine life of c.40 years at an average copper grade of 0.36 per cent. The mine and processing facilities commenced output in 2016 and is expected to produce an average of 100 kt of copper production and 120 koz of gold in concentrate per year over the first 10 years of operations.

The Peschanka deposit within the Baimskaya licence area in Russia has JORC resources of 9.5 Mt of copper at an average grade of 0.43 per cent. and 16.5 Moz of gold at an average grade of 0.23 g/t. The project is located in a region identified by the Russian government as strategically important for economic development and is expected to benefit from the construction of state-funded power and transport infrastructure and the provision of tax incentives. The estimated capital budget for construction is around \$7 billion, with c.10 per cent. to be incurred after the commencement of production.

KAZ Minerals is listed on the London Stock Exchange and the Kazakhstan Stock Exchange and employs around 15,755 people, principally in Kazakhstan.

10. **Financing of the Acquisition**

The cash consideration payable to KAZ Minerals Shareholders by Bidco pursuant to the terms of the Acquisition will be financed with the proceeds of the VTB Facility Agreement.

VTB Capital is satisfied that sufficient resources are available to Bidco to satisfy in full the consideration payable to KAZ Minerals Shareholders under the terms of the Acquisition.

11. **Irrevocable undertakings**

Bidco has received irrevocable undertakings from all of the members of the Independent Committee who hold KAZ Minerals Shares to vote in favour of the Scheme at the Court Meeting and the resolutions relating to the Acquisition at the KAZ Minerals General Meeting in respect of their own beneficial holdings totalling 719,026 KAZ Minerals Shares and representing, in aggregate, approximately 0.15 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement).

Bidco has received irrevocable undertakings from Ferris, Denalot and Greenleas to vote in favour of the Scheme at the Court Meeting and the resolutions relating to the Acquisition at the KAZ Minerals General Meeting, in respect of 28,245,449 KAZ Minerals Shares, representing, in aggregate, approximately 5.98 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement).

In total, therefore, Bidco has received irrevocable undertakings to vote, or procure votes, in favour of the Scheme at the Court Meeting and the resolutions relating to the Acquisition at the KAZ Minerals General Meeting in respect of 28,964,475 KAZ

Minerals Shares in aggregate, representing approximately 6.13 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement).

Further details of these irrevocable undertakings to vote in favour of the Scheme at the Court Meeting are set out in Appendix 3 of this announcement.

12. Offer-related arrangements

Confidentiality Agreement

On 8 October 2020, Bidco, Kinton and KAZ Minerals entered into a confidentiality agreement (the "**Confidentiality Agreement**") in relation to the Acquisition, pursuant to which, amongst other things, Bidco has undertaken to keep information relating to KAZ Minerals and to the Acquisition confidential and not to disclose it to third parties (with certain exceptions). These confidentiality obligations will remain in force until the second anniversary of the date of the Confidentiality Agreement (or, if earlier, the completion of the Acquisition). The Confidentiality Agreement contains standstill provisions which restrict Bidco and its associated persons from acquiring or seeking to acquire interests in certain securities of KAZ Minerals; with those restrictions ceasing to apply upon the release of this announcement. The Confidentiality Agreement contains provisions pursuant to which Bidco has agreed not to solicit certain employees of KAZ Minerals' Group, subject to customary carve-outs, for a period of 12 months from the date of the Confidentiality Agreement. Kinton has agreed to guarantee the obligations of Bidco under the Confidentiality Agreement.

Bid Conduct Agreement

Oleg Novachuk, Vladimir Kim, Holdco and Bidco have entered into a bid conduct agreement (the "**Bid Conduct Agreement**"), pursuant to which they have agreed certain principles in accordance with which they intend to cooperate in respect of the Acquisition. The terms of the Bid Conduct Agreement include an agreement not to pursue a competing proposal with respect to KAZ Minerals or take any action to frustrate the Acquisition or solicit or induce another person to make a competing proposal until such time as, among others, the offer (once made) completes, is withdrawn or lapses, a competing offer is effective or completes or they both agree to no longer pursue a transaction.

Cooperation Agreement

On 27 October 2020, Bidco and KAZ Minerals entered into a cooperation agreement (the "**Cooperation Agreement**"), pursuant to which, among other things, Bidco and KAZ Minerals have agreed to cooperate: (i) in relation to obtaining any consents, clearances, permissions, waivers and/or approvals as may be necessary, and the making of all filings as may be necessary, from or under the law, regulations or practices applied by any applicable regulatory authority in connection with the Acquisition; and (ii) in preparing and implementing appropriate proposals in relation to the KAZ Minerals Share Plans. In addition, Bidco has agreed to certain provisions if the Scheme should switch to a Takeover Offer and the approach to be followed after the Effective Date in respect of certain employee matters.

The Cooperation Agreement will terminate in certain circumstances, including if the Acquisition is withdrawn, terminated or lapses, a competing offer completes, becomes effective or is declared unconditional, or if the Independent Committee withdraws its recommendation of the Acquisition or if the Scheme does not become effective in accordance with its terms by the Long Stop Date or otherwise as agreed between Bidco and KAZ Minerals.

Shareholders Agreement

On 27 October 2020, Holdco and the Consortium entered into a shareholders agreement (the "**Shareholders Agreement**") which governs: (i) the terms on which the parties have agreed to invest in Holdco and their rights and obligations as directors and shareholders in relation to the operation and management of Holdco; and (ii) the mutual relationship between the shareholders and their rights and obligations in respect of their shareholdings in Holdco, all in conjunction with the articles of association of Holdco.

13. **Share Exchange Agreement**

Holdco, Bidco, Oleg Novachuk and certain other wholly-owned (either directly or indirectly) subsidiaries of each of the Consortium members have entered into a share exchange agreement (the "**Share Exchange Agreement**") under which Bidco has agreed to acquire 186,079,209 KAZ Minerals Shares owned or controlled (either directly or indirectly) by the Consortium, representing approximately 39.39 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement), upon the Acquisition becoming Effective. In consideration for the acquisition of such KAZ Minerals Shares from the Consortium, Holdco will issue additional shares in the capital of Holdco to certain wholly-owned (either directly or indirectly) subsidiaries of each of the Consortium members, conditional, and taking effect, upon the Acquisition becoming Effective. At the Effective Date, Oleg Novachuk will indirectly own 36.5 per cent. of Holdco and Vladimir Kim will indirectly own 63.5 per cent. of Holdco.

14. **Baimskaya SPA**

In 2018, KAZ Minerals, KAZ Minerals Investments Limited (a wholly-owned subsidiary of KAZ Minerals) and Aristus entered into the Baimskaya SPA, pursuant to which KAZ Minerals Investments Limited agreed to acquire from Aristus the Baimskaya project, one of the world's most significant undeveloped copper assets, located in the Chukotka region of Russia. The Baimskaya SPA provides for completion of the acquisition to occur in two tranches: (i) first completion, which took place in January 2019; and (ii) second completion, which has yet to take place.

At first completion under the Baimskaya SPA, KAZ Minerals Investments Limited acquired a 75 per cent. interest in the Baimskaya project from Aristus, in return for cash consideration of approximately USD 436 million and an approximately 4.75 per cent. shareholding in KAZ Minerals. The KAZ Minerals Shares issued at first completion remain subject to a lock-up period that expires in January 2022. Pursuant to a carve-out to that lock-up agreement, Aristus subsequently transferred its holding of KAZ Minerals Shares to its parent company, Ferris. Ferris currently holds 22,344,944 KAZ Minerals Shares, representing approximately 4.73 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement). In addition, Denalot and Greenleas, ultimate beneficiaries of which are among the ultimate beneficiaries of Ferris, currently hold 4,067,219 and 4,067,218 KAZ Minerals Shares, representing approximately 0.86 per cent. and 0.86 per cent. of the existing issued share capital (excluding shares held in treasury) of KAZ Minerals on 27 October 2020 (being the last Business Day prior to the date of this announcement), respectively.

Under the Baimskaya SPA, KAZ Minerals Investments Limited agreed to acquire the remaining 25 per cent. interest in the Baimskaya project at second completion. Second completion is scheduled to occur at the earlier of: (i) the date when the Baimskaya project reaches an agreed level of ore processing capacity, which is not expected until 2026 at the earliest; and (ii) a long stop date of 31 March 2029. At scheduled second completion, the consideration payable to Aristus comprises the issue of up to 21,009,973 new KAZ Minerals Shares (although the Baimskaya SPA provides that such number of new KAZ Minerals Shares may be adjusted upwards to account for

any dividend paid by KAZ Minerals prior to second completion). The exact number of new KAZ Minerals Shares to be issued depends on the extent to which various project delivery triggers (the "**Consideration Triggers**") are satisfied, or waived by the KAZ Minerals Group, at the date of second completion.

If and to the extent that the Consideration Triggers have not been satisfied, or waived by the KAZ Minerals Group, at second completion, share consideration is not payable at second completion and is instead payable in cash at the long stop date of 31 March 2029. The maximum cash consideration payable at the long stop date of 31 March 2029 (if none of the Consideration Triggers are satisfied at second completion) is USD 225 million. If the Baimskaya project does not reach the agreed level of ore processing capacity by the long stop date of 31 March 2029, second completion will occur as if none of the Consideration Triggers have been satisfied, and USD 225 million in cash consideration will be payable at that date.

Under the Baimskaya SPA, Aristus has the right to accelerate second completion in certain circumstances, including on the cancellation of the premium listing of KAZ Minerals Shares on the Official List, which will occur on or shortly after the Effective Date of the Acquisition. If the Scheme becomes Effective and Aristus exercises this acceleration right, under the terms of the Baimskaya SPA: (i) Aristus will have the right to receive its second tranche of consideration at or shortly after the Effective Date, rather than at the date at which second completion would otherwise have occurred and/or at the long stop date of 31 March 2029; and (ii) that second tranche of consideration will comprise USD 225 million in cash, rather than the issue and allotment of any KAZ Minerals Shares to Aristus.

However, if Aristus did not exercise this acceleration right, the 21,009,973 new KAZ Minerals Shares (assuming that the number of new KAZ Minerals Shares has not been adjusted as described above) that would be issued to Aristus at second completion (if all the Consideration Triggers were satisfied at second completion) would have a value at the Offer Price of approximately USD 176 million (assuming that the number of new KAZ Minerals Shares has not been adjusted as described above).

15. **KAZ Minerals Share Plans**

Participants in the KAZ Minerals Share Plans will be contacted regarding the effect of the Acquisition on their outstanding options and awards under the KAZ Minerals Share Plans and will, in due course, be provided with further details concerning the proposals which will be set out in the Scheme Document and in separate letters to be sent to participants in the KAZ Minerals Share Plans.

Additionally, as set out in paragraph 18, Oleg Novachuk has vested options to acquire 186,884 KAZ Minerals Shares through his participation in the Long Term Incentive Plan 2007, and unvested options to acquire 629,927 KAZ Minerals Shares through his participation in the 2017 Long Term Incentive Plan, which Oleg Novachuk intends to waive entirely when the Court sanctions the Scheme.

16. **Scheme process and Conditions to the Acquisition**

It is intended that the Acquisition shall be effected by means of a Court-approved scheme of arrangement between KAZ Minerals and the Scheme Shareholders under Part 26 of the Companies Act.

The effect of the Scheme (in conjunction with the Share Exchange Agreement) is to provide for Bidco to become the holder (directly or indirectly) of the entire issued and to be issued share capital of KAZ Minerals. This is to be partially achieved by the transfer of the Scheme Shares to Bidco, in consideration for which the Scheme Shareholders shall receive the consideration on the basis set out in paragraph 2 of this announcement.

The KAZ Minerals Shares owned or controlled by the Consortium (being 186,079,209 KAZ Minerals Shares as at 27 October 2020, being the last Business Day prior to the date of this announcement), will not be Scheme Shares and will not be acquired by Bidco pursuant to the Scheme but will be acquired by Bidco pursuant to the Share Exchange Agreement. The registered holders of the KAZ Minerals Shares owned or controlled by the Consortium will not be permitted to vote such KAZ Minerals Shares at the Court Meeting, but will be permitted to vote such KAZ Minerals Shares at the KAZ Minerals General Meeting in favour of the resolutions relating to the Acquisition.

To become Effective, the Scheme requires, among other things:

- ℞• the approval of a majority in number of the Scheme Shareholders who are present and vote, whether in person or by proxy, at the Court Meeting and who represent not less than 75 per cent. in value of the KAZ Minerals Shares voted by those Scheme Shareholders;
- ℞• the passing of the resolutions necessary to implement the Acquisition at the KAZ Minerals General Meeting (which will require the approval of KAZ Minerals Shareholders representing at least 75 per cent. of the votes cast at the KAZ Minerals General Meeting either in person or by proxy);
- ℞• receipt of the relevant antitrust clearances and regulatory approvals; and
- ℞• the sanction of the Scheme by the Court and, following such sanction, the delivery of a copy of the Court Order to the Registrar of Companies.

The Conditions in paragraph 2 of Part A of Appendix 1 to this announcement provide that the Scheme will lapse if:

- ℞• the Court Meeting and the KAZ Minerals General Meeting are not held by the 22nd day after the expected date of the Court Meeting to be set out in the Scheme Document in due course (or such later date as may be agreed between Bidco and KAZ Minerals (and that the Court may allow));
- ℞• the Sanction Hearing to approve the Scheme is not held by the 22nd day after the expected date of such hearing to be set out in the Scheme Document in due course (or such later date as may be agreed between Bidco and KAZ Minerals (and that the Court may allow)); or
- ℞• the Scheme does not become Effective by 11.59 p.m. on the Long Stop Date,

provided however that the deadlines for the timing of the Court Meeting, the KAZ Minerals General Meeting and the Sanction Hearing as set out above may be waived by Bidco, and the Long Stop Date may be extended by agreement between KAZ Minerals and Bidco.

If any Condition in paragraph 2 of Part A of Appendix 1 to this announcement is not capable of being satisfied by the date specified therein, Bidco shall make an announcement through a Regulatory Information Service as soon as practicable and, in any event, by not later than 7.00 a.m. on the Business Day following the date so specified, stating whether Bidco has invoked that Condition, (where applicable) waived that Condition or, with the agreement of KAZ Minerals, specified a new date by which that Condition must be satisfied.

Upon the Scheme becoming Effective, it shall be binding on all Scheme Shareholders, irrespective of whether or not they attended or voted at the Court Meeting or the KAZ Minerals General Meeting.

It is expected that the Scheme Document, containing further information about the Acquisition and notices of the Court Meeting and KAZ Minerals General Meeting, together with the associated forms of proxy, will be posted to KAZ Minerals Shareholders in due course and that the Court Meeting and the KAZ Minerals General Meeting will be held in December 2020 or early January 2021.

Subject to the satisfaction of the Conditions, the Scheme is expected to become Effective in the first half of 2021.

17. Delisting, cancellation of trading and re   registration

It is intended that the London Stock Exchange and the FCA will be requested respectively to cancel trading in KAZ Minerals Shares on the London Stock Exchange's market for listed securities and the listing of the KAZ Minerals Shares on the Official List on or shortly after the Effective Date.

The last day of dealings in KAZ Minerals Shares on the Main Market of the London Stock Exchange is expected to be the date of the Sanction Hearing and no transfers will be registered after 6.00 p.m. (London time) on that date.

It is intended that KAZ Minerals be re   registered as a private limited company as soon as practicable on or following the Effective Date.

It is also intended that the Kazakhstan Stock Exchange will be requested to cancel trading in KAZ Minerals Shares for listed securities and the listing of the KAZ Minerals Shares on the official list on the Kazakhstan Stock Exchange on or shortly after the Effective Date. The availability of the Acquisition to KAZ Minerals Shareholders who are not resident in and citizens of the United Kingdom may be affected by the laws of the relevant jurisdictions in which they are located or of which they are citizens. In particular, the ability of persons who are not resident in the United Kingdom to vote their KAZ Minerals Shares with respect to the Scheme at the Court Meeting, or to appoint another person as proxy to vote at the Court Meeting on their behalf, may be affected by the laws of the relevant jurisdictions in which they are located. Any failure to comply with the applicable restrictions may constitute a violation of the securities laws of any such jurisdiction. Further details in relation to Overseas Shareholders will be contained in the Scheme Document.

Unless otherwise determined by Bidco or required by the Takeover Code, and permitted by applicable law and regulation, the Acquisition will not be made available, directly or indirectly, in, into or from a Restricted Jurisdiction where to do so would violate the laws in that jurisdiction and no person may vote in favour of the Scheme by any such use, means, instrumentality or from within a Restricted Jurisdiction or any other jurisdiction if to do so would constitute a violation of the laws of that jurisdiction. Notice to US investors in KAZ Minerals

The Acquisition relates to the shares of an English company and is being made by means of a scheme of arrangement provided for under English company law. A transaction effected by means of a scheme of arrangement is not subject to the tender offer or proxy solicitation rules under the US Securities Exchange Act of 1934 (the "US Exchange Act"). Accordingly, the Acquisition is subject to the disclosure requirements and practices applicable in the United Kingdom to schemes of arrangement which differ from the disclosure requirements of the US tender offer and proxy solicitation rules. The financial information relating to KAZ Minerals included in this announcement and the Scheme Document has been prepared in accordance with accounting standards applicable in the United Kingdom and thus may not be comparable

to financial information of US companies or companies whose financial statements are prepared in accordance with generally accepted accounting principles in the US.

If, in the future, Bidco exercises its right to implement the Acquisition by way of a Takeover Offer, which is to be made into the US, such Takeover Offer will be made in compliance with the applicable US laws and regulations, including Section 14(e) and Regulation 14E under the US Exchange Act. Such a takeover would be made in the United States by Bidco and no one else.

In the event that the Acquisition is implemented by way of Takeover Offer, Bidco, its affiliates, and the nominees or brokers (acting as agents) may make certain purchases of, or arrangements to purchase, shares in Kent outside the Acquisition, such as in open market purchases or privately negotiated purchases, during the period in which the Acquisition remains open for acceptance. If such purchases or arrangements to purchase were to be made, they would be made outside the US and would comply with applicable law, including United Kingdom laws and the US Exchange Act. Any such purchases by Bidco or its affiliates will not be made at prices higher than the price of the Acquisition provided in this announcement unless the price of the Acquisition is increased accordingly. Any information about such purchases or arrangements to purchase shall be disclosed as required under United Kingdom laws and will be available to all investors (including US investors) via the Regulatory Information Service and shall be available on the London Stock Exchange website at www.londonstockexchange.com. To the extent that such information is required to be publicly disclosed in the United Kingdom in accordance with applicable regulatory requirements, this information will, as applicable, also be publicly disclosed in the United States.

It may be difficult for US holders of KAZ Minerals Shares to enforce their rights and any claim arising out of the US federal laws, since Bidco and KAZ Minerals are located in a non-US jurisdiction, and some or all of their officers and directors may be residents of a non-US jurisdiction. US holders of KAZ Minerals Shares may not be able to sue a non-US company or its officers or directors in a non-US court for violations of the US securities laws. Further, it may be difficult to compel a non-US company and its affiliates to subject themselves to a US court's judgement.

Neither the US Securities and Exchange Commission nor any US state securities commission has approved or disapproved or passed judgement upon the fairness or the merits of the Acquisition, or determined if the information contained in this announcement is adequate, accurate or complete. Any representation to the contrary is a criminal offence in the US.

The receipt of consideration by a US KAZ Minerals Shareholder for the transfer of its KAZ Minerals Shares pursuant to the Acquisition will likely be a taxable transaction for US federal income tax purposes and under applicable US state and local, as well as foreign and other, tax laws. Each US KAZ Minerals Shareholder is urged to consult their independent legal, tax and financial advisers immediately regarding the tax consequences of the Acquisition applicable to them, including under applicable US state and local, as well as overseas and other, tax laws.

Forward looking statements

This announcement (including information incorporated by reference in this announcement), oral statements made regarding the Acquisition, and other information published by Bidco and KAZ Minerals contain statements which are, or may be deemed to be, "forward-looking statements". Forward-looking statements are prospective in nature and are not based on historical facts, but rather on current expectations and projections of the management of Bidco and KAZ Minerals about future events, and are therefore subject to risks and uncertainties which could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements.

The forward-looking statements contained in this announcement include statements relating to the expected effects of the Acquisition on Bidco and KAZ Minerals (including their future prospects, developments and strategies), the expected timing and scope of the Acquisition and

other statements other than historical facts. Often, but not always, forward-looking statements can be identified by the use of forward-looking words such as "plans", "expects" or "does not expect", "is expected", "is subject to", "budget", "projects", "strategy", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved. Although Bidco and KAZ Minerals believe that the expectations reflected in such forward-looking statements are reasonable, Bidco and KAZ Minerals can give no assurance that such expectations will prove to be correct. By their nature, forward-looking statements involve risk and uncertainty because they relate to events and depend on circumstances that will occur in the future. There are a number of factors that could cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements.

These factors include, but are not limited to: the ability to complete the Acquisition; the ability to obtain requisite regulatory and shareholder approvals and the satisfaction of other Conditions on the proposed terms and schedule; future market conditions, changes in general economic and business conditions, the behaviour of other market participants, the anticipated benefits from the proposed transaction not being realised as a result of changes in general economic and market conditions in the countries in which Bidco and KAZ Minerals operate; weak, volatile or illiquid capital and/or credit markets; changes in tax rates; interest rate and currency value fluctuations; the degree of competition in the geographic and business areas in which Bidco and KAZ Minerals operate and changes in laws or in supervisory expectations or requirements. Other unknown or unpredictable factors could cause actual results to differ materially from those in the forward-looking statements. Such forward-looking statements should therefore be construed in the light of such factors. Neither Bidco nor KAZ Minerals, nor any of their respective associates or directors, officers or advisers, provides any representation, assurance or guarantee that the occurrence of the events expressed or implied in any forward-looking statements in this announcement will actually occur. You are cautioned not to place any reliance on these forward-looking statements. Other than in accordance with their legal or regulatory obligations, neither Bidco nor KAZ Minerals is under any obligation, and Bidco and KAZ Minerals expressly disclaim any intention or obligation, to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

A Dealing Disclosure must contain details of the dealing concerned and of the person's interests and short positions in, and rights to subscribe for, any relevant securities of each of (i) the offeree company and (ii) any securities exchange offeror(s), save to the extent that these details have previously been

disclosed under Rule 8. A Dealing Disclosure by a person to whom Rule 8.3(b) applies must be made by no later than 3.30 pm (London time) on the business day following the date of the relevant dealing.

If two or more persons act together pursuant to an agreement or understanding, whether formal or informal, to acquire or control an interest in relevant securities of an offeree company or a securities exchange offeror, they will be deemed to be a single person for the purpose of Rule 8.3.

Opening Position Disclosures must also be made by the offeree company and by any offeror and Dealing Disclosures must also be made by the offeree company, by any offeror and by any persons acting in concert with any of them (see Rules 8.1, 8.2 and 8.4).

Part B: Further Terms of the Acquisition

1. Subject to the requirements of the Panel in accordance with the Takeover Code, Bidco reserves the right to waive, in whole or in part, all or any of the Conditions in Part A above, except Conditions 2(a)(i), 2(b)(i) and 2(c) which cannot be waived.
2. Bidco shall be under no obligation to waive or treat as satisfied any of the Conditions that it is entitled (with the consent of the Panel) to invoke, by a date earlier than the latest date specified above for the fulfilment or waiver thereof, notwithstanding that the other Conditions may at such earlier date have been waived or fulfilled and that there are at such earlier date no circumstances indicating that any of such Conditions may not be capable of fulfilment.
3. If Bidco is required by the Panel to make an offer for KAZ Minerals Shares under the provisions of Rule 9 of the Takeover Code, Bidco may make such alterations to any of the above Conditions as are necessary to comply with the provisions of that Rule.
4. Under Rule 13.5(a) of the Code, Bidco may not invoke a Condition so as to cause the Acquisition not to proceed, to lapse or to be withdrawn unless the circumstances which give rise to the right to invoke the Condition are of material significance to Bidco in the context of the Acquisition. The Conditions contained in paragraph 2 of Part A above and, if applicable, any acceptance condition if the Acquisition is implemented by means of a Takeover Offer, are not subject to this provision of the Takeover Code.
5. Bidco reserves the right to elect to implement the Acquisition by way of a Takeover Offer as an alternative to the Scheme, with the consent of the Panel and subject to the terms of the Cooperation Agreement. In such event, the Acquisition will be implemented on the same terms (subject to appropriate amendments including (without limitation) the inclusion of an acceptance condition set at 75 per cent. (or such other percentage as Bidco may, subject to the rules of the Takeover Code and with the consent of the Panel, decide) of the shares to which the Acquisition relates and those required by, or deemed appropriate by, Bidco under applicable law, so far as applicable) as those which would apply to the Scheme. Further, if sufficient acceptances of such offer are received and/or sufficient KAZ Minerals Shares are otherwise acquired, it is the intention of Bidco to apply the provisions of the Companies Act 2006 to acquire compulsorily any outstanding KAZ Minerals Shares to which such offer relates.
6. The Acquisition will be governed by English law and be subject to the jurisdiction of the English courts and to the Conditions and further terms set out above and to be set out in full in the Scheme Document. The Scheme will be subject to the applicable requirements of the Takeover Code, the Panel, the London Stock Exchange, the Listing Rules, the FCA and the Registrar of Companies.
7. Each of the Conditions shall be regarded as a separate Condition and shall not be limited by reference to any other Condition.
8. The KAZ Minerals Shares will be acquired pursuant to the Acquisition fully paid and free from all liens, charges, equities, encumbrances, rights of pre-emption and any other interests of any nature whatsoever and together with all rights now or hereafter attaching thereto, including without limitation voting rights and the right to receive and retain in full all dividends and other distributions (if any) announced, declared, made or paid or any other return of value on or after the Effective Date.
9. If, on or after the date of this announcement, any dividend and/or other distribution and/or return of capital is declared, made or paid or becomes payable in respect of the KAZ Minerals Shares, Bidco reserves the right to reduce the consideration payable under the terms of the Acquisition for the KAZ Minerals Shares by an amount up to the amount of such dividend and/or other distribution and/or return of capital, in which

case any reference in this announcement to the consideration payable under the terms of the Acquisition will be deemed to be a reference to the consideration as so reduced.

10. The Acquisition will be subject, inter alia, to the Conditions and certain further terms which are set out in this Appendix 1 and those terms which will be set out in the Scheme Document and such further terms as may be required to comply with the Listing Rules and the provisions of the Takeover Code.
11. The availability of the Acquisition to persons not resident in the United Kingdom may be affected by the laws of the relevant jurisdiction. Any persons who are subject to the laws of any jurisdiction other than the United Kingdom should inform themselves about and observe any applicable requirements. Further information in relation to Overseas Shareholders will be contained in the Scheme Document.
12. The Acquisition is not being made, directly or indirectly, in, into or from, or by use of the mails of, or by any means of instrumentality (including, but not limited to, facsimile, e-mail or other electronic transmission, telex or telephone) of interstate or foreign commerce of, or of any facility of a national, state or other securities exchange of, any jurisdiction where to do so would violate the laws of that jurisdiction.
