\* Passed as a special resolution.

The Board of Compass Group PLC is pleased to note that all resolutions were passed at today's AGM, and we would like to take this opportunity to thank our shareholders for their ongoing support. Although over 70% of shareholders supported Resolution 2 in respect of our Directors' Remuneration Report, we acknowledge that a notable minority did not vote in favour of this resolution.

The Company conducted a comprehensive engagement exercise with shareholders in advance of this year's Annual General Meeting and it was apparent that investor opinions on the Resolution 2 were mixed. The majority of shareholders, and two of the most prominent voting advisory bodies, were supportive of the resolution and of the Company's approach to remuneration. A minority of shareholders were influenced by another influential voting advisory body that was opposed to the resolution; with concerns primarily relating to the increase in long-term incentive opportunity as part of the Remuneration Policy that was successfully approved by shareholders at the 2022 AGM. Notably, not all the shareholder dissent was against the increase in LTIP quantum; indeed, the largest single vote against the Remuneration Policy last year, and against the Remuneration Report this year, was partly influenced by a view that the incentive opportunities were not high enough. In this context, building unanimous support across the register was challenging.

In developing the Remuneration Policy last year, the Remuneration Committee consulted extensively with our largest shareholders prior to last year's AGM. The feedback received helped the Committee to shape our final proposals. In advance of the 2022 AGM, the Committee had a clear understanding that, while the approach had the support of the majority of our investors, there was a minority who were unsupportive of the proposed changes at that time.

After careful consideration of all feedback, the Committee concluded that the proposed approach was in the long-term interests of the Company and of our shareholders. The Committee therefore proceeded with the adoption and subsequent implementation of the Remuneration Policy following approval by investors at the 2022 AGM. We also subsequently maintained dialogue with investors on executive pay, including with those who did not support the Remuneration Policy, with further engagement in the Spring of 2022 and in early 2023.

Over multiple years, the Remuneration Committee has engaged extensively with shareholders on matters relating to executive pay and we intend to maintain this open and transparent dialogue in the future. We recognise that executive pay is a topic which attracts strong and often differing opinions amongst investors and we will therefore continue to seek an approach which is measured, fair, and supports the sustainable delivery of the Company's long-term strategy.

John Bryant has taken over the Remuneration Committee Chair role following the AGM. John will be extending an invitation to our major investors shortly, particularly those who did not support the Remuneration Report resolution,

to discuss further their views on our approach to executive pay. A further update on the outcome of these discussions and our approach to executive pay will be provided in due course.

A copy of the above results will shortly be available in the investor section of the Company's website [www.compass-group.com](http://www.compass-group.com).

A copy of all of the Resolutions passed, will be submitted to the National Storage Mechanism and in due course will be available to view at <https://data.fca.org.uk/#/nsm/nationalstoragemechanism> .

As at the close of business on 8 February 2023, the issued share capital was 1,785,403,977 ordinary shares of 11 1/20 pence each of which 36,496,028 were held as treasury shares and the total number of voting rights in respect of these ordinary shares (excluding treasury shares) was 1,748,907,949 each ordinary share having one vote.

**ENDS**
