While the Board is pleased that all resolutions were supported by the required majorities, we note that more than 20% of votes were cast against Resolutions 2, 3, 4 and 8. Over the past year, the Board has actively engaged with shareholders regarding its approach to director remuneration, resulting in adjustments to the proposed Remuneration Policy. Looking ahead, the Board will continue to engage with shareholders to further understand their perspectives and the reasons behind their opposition to certain proposals. In accordance with the UK Corporate Governance Code, we will provide an update on our engagement efforts within the next six months.

Notes:

- (1) A vote "Withheld" is not a vote in law and is not counted in the calculation of the votes "For" or "Against" a resolution.
- (2) As at June 13, 2024 the number of issued shares in the Company was 270,859,250 ordinary shares, which was the total number of shares entitling the holders to attend and vote for or against all the resolutions at the AGM. In accordance with the Company's Articles of Association, on a poll every member present in person or by proxy has one vote for every share held.
- (3) The full text of the resolutions may be found in the Notice of the Annual General Meeting, copies of which are available on both the Company's website <https://investors.puretechhealth.com/financials-filings/reports> and on the National Storage Mechanism.

About PureTech Health

PureTech is a clinical-stage biotherapeutics company dedicated to giving life to new classes of medicine to change the lives of patients with devastating diseases. The Company has created a broad and deep pipeline through its experienced research and development team and its extensive network of scientists, clinicians and industry leaders that is being advanced both internally and through its Founded Entities. PureTech's R&D engine has resulted in the development of 29 therapeutics and therapeutic candidates, including two that have received both U.S. FDA clearance and European marketing authorization and a third (KarXT) that has been filed for FDA approval. A number of these programs are being advanced by PureTech or its Founded Entities in various indications and stages of clinical development, including registration enabling studies. All of the underlying programs and platforms that resulted in this pipeline of therapeutic candidates were initially identified or discovered and then advanced by the PureTech team through key validation points.
